

**If you're online
BE KIND**

**Make sure that everything you
say online is KIND**

The internet NEVER FORGETS

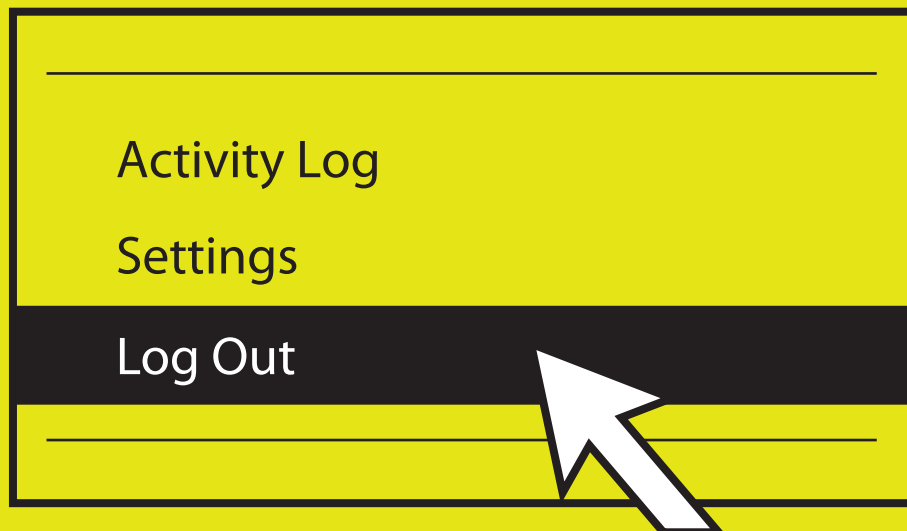

Even though you might delete something, everything is actually stored so if you are unsure whether or not you should say something, STAY QUIET.

Mystery Messages are a NO-GO!

**If you don't know who a message is
from DON'T EVEN OPEN IT!**

Always LOGOUT!

Make sure you log out of your social medias because otherwise people can play pranks and be unkind to people in YOUR NAME.

Keep your Password a **SECRET**

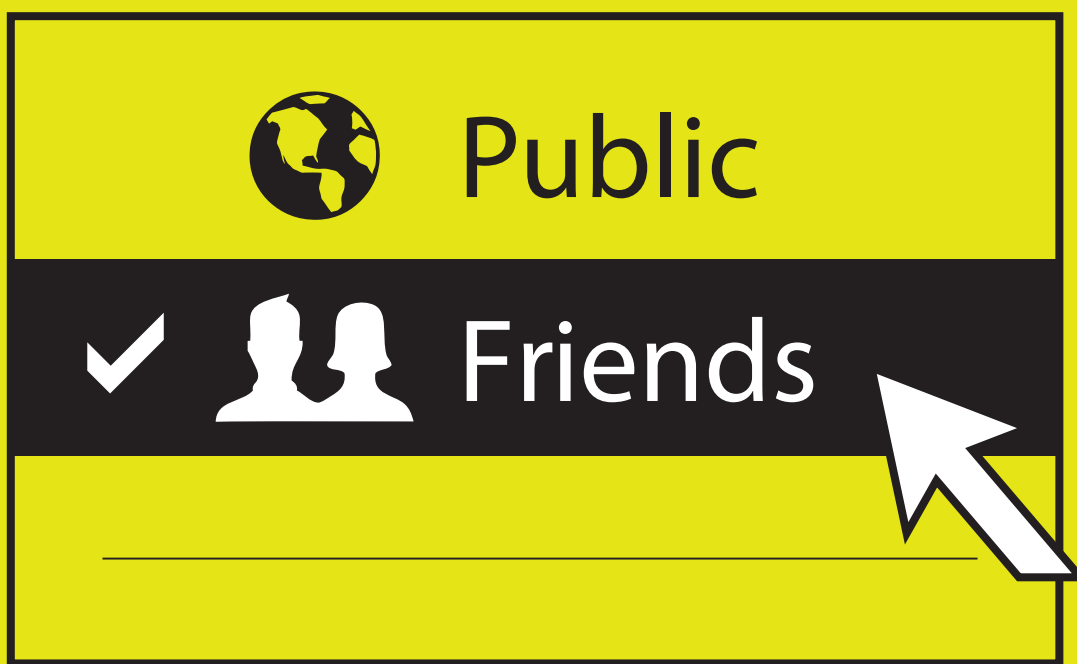

DON'T TELL anyone your passwords.

Who's on your phone?

Make sure that you know where all of your devices are, because otherwise people might be unkind to others on them

Friends ONLY

**If you have never met someone,
don't talk to them on the Internet or
on your social media.
It's better to be **SAFE, THAN SORRY!****

LOCATION

Make sure that you don't tag (or let people know) where you are online because it means that people you don't necessarily know can find out where you are which isn't safe.

Think before you FRIEND or FOLLOW

**Before you friend or follow someone,
ask yourself if they are going to be a
kind person on the Internet. If they
are not going to be kind
DON'T FOLLOW**
